PROFESSIONAL OVERVIEW

Passionate and dedicated software developer with expertise in web application development skills. Eager to learn, grow, and take on new challenges, I thrive in environments that push my problem-solving skills and technical abilities. I am always seeking opportunities to expand my knowledge, improve my craft, and contribute meaningful solutions. My goal is to continuously evolve as a developer while building impactful applications that make a difference.

EXPERIENCE

Full-Stack Developer Intern

MTN RWANDA, Kigali Rwanda | May 2019 – April 2020

- Developed & Maintained Apps – Assisted in building and optimizing web and mobile applications using JavaScript (React, Node.js).
- Backend & API Integration – Supported backend development with Java (Spring Boot) and Python, ensuring smooth API functionality.
- Debugging & Collaboration – Helped troubleshoot issues, write clean code, and work with UI/UX and DevOps teams to improve applications.

Covid-Youth Volunteer Web Developer (Remote)

REB, Kigali Rwanda | May 2020 – April 2021

- Role: helped in Building a central hub for COVID-related educational resources, guidelines, and updates for teachers, students, and parents. This could have included information on health protocols, government measures, and mental health resources.
- Technologies Used: JavaScript, Node.js, and simple static pages with HTML/CSS.

Full-Stack Developer (Remote)

Flower Child, Kigali Rwanda | August 2021 – December 2023

- Design, develop, and maintain our e-commerce website using modern web technologies (e.g., HTML, CSS, JavaScript, Nodejs, MongoDB).
- Collaborate with the marketing team to create visually appealing landing pages and promotional content.
- Develop and execute a social media strategy across platforms like Instagram, Facebook, Pinterest, and Twitter,
- focusing on creating and curating engaging content (images, videos, stories) that aligns with our brand and resonates with our target audience.
